COMPACT POWER SYSTEMS DONATES ANYTIME, ANYWHERE POWER SOLUTIONS TO HELP U.S. TROOPS OVERSEAS STAY CONNECTED

Company Launches Charitable Giving Initiative of Cellboost for Cell Phone Products

LOS ANGELES, CA (May 23, 2005) – To commemorate Memorial Day, Compact Power Systems, LLC., (CPS) makers of **Cellboost™** portable power solutions, will donate 25,000 Cellboost for cell phones to Operation Gratitude to be included in care packages that will be sent to U.S. troops overseas. Cellboost provides portable power to cell phones when batteries die or are low on battery power, and recharging is not an available option. The Patriotic Drive donation, which includes every Cellboost model, covering nearly all cell phones on the market, will launch the first wave of Compact Power Systems commitment to charitable giving.

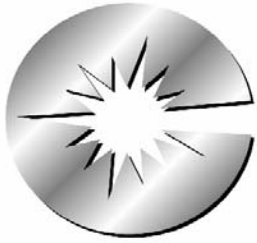

“Most people know that cell phone batteries lose their power after a period of time.” said Kai Clarke, CPS president. “By providing our troops with Cellboost products we can help prolong the life of a cell phone which can be vital in many of the dangerous situations our troops face. CPS is proud to honor those individuals that put their own lives in danger in service to this country.”

Cellboost allows you to continue using your phone while simultaneously charging it with 60 minutes of talk time / 60 hours of standby time. The pocket-sized accessory, inserted into the same portal as the standard AC charger, restores power to a dead or dying phone instantly, without using electrical outlets or cords, or changing batteries. The Cellboost units simultaneously power and charge; can be used in one charging session or several; and can be thrown away when the power is exhausted.

Operation Gratitude is a nonprofit, volunteer organization that sends care packages of essentials such as food, toiletries, and gifts to support troops currently deployed overseas. Its mission to lift moral, express the appreciation of the American people, and to provide the military with much needed amenities. Founded by Carolyn Blashek, a passionate military supporter, Operation Gratitude has sent over 44,000 care packages to soldiers in Iraq, Kuwait, Bosnia, Korea, and Kosovo. the organization has acknowledged CPS as a corporate sponsor.

Cellboosts are available for nearly all cellular phone brands from Nokia, LG, Motorola, Siemens, Sony Ericsson, Sanyo, Samsung and BlackBerry. The product line is sold at over 80,000 outlets nationwide, including Office Depot, Wal-Mart, Radio Shack, Ralph’s, Sav-On, Albertsons, Staples and Cingular Wireless. The products retail for between \$4.99 and \$6.99. Additionally, the company distributes globally with sales in Canada, Italy, Germany, France, Ireland, the UK and India. By the end of 2005, it is expected that Cellboost will be available in over 120,000 stores worldwide.
