**COMPACT POWER SYSTEMS EXPANDS RETAIL DISTRIBUTION
FOR CELLBOOST™ LINE FOR CELL PHONES**

*Cellboost Now Available at Longs Drugs, Rite-Aid,
and Walgreens Retail Chain Outlets*

LOS ANGELES, CA (July 11, 2005) – Compact Power Systems, LLC., (CPS) makers of **Cellboost™** portable power solutions, today announced it has expanded its retail distribution presence to three additional major national retail chains as part of the company’s widespread growth initiatives. Cellboost, which provides instant and inexpensive battery power to cell phones when batteries die or are low, and recharging is not an option, is now available at Longs Drugs, Rite-Aid and Walgreens.

“We are excited to announce Longs Drugs, Rite-Aid and Walgreens as our newest national retail partners,” said Kai Clarke, president of CPS. “With the growing demand from consumers for our products, we are thrilled to be working with these retail chains to further extend our domestic visibility and reach.”

As further indication of the company’s growth, a new line of Cellboost models for several portable consumer electronics will soon be announced.

Cellboost allows you to continue using your phone while simultaneously charging it with 60 minutes of talk time / 60 hours of standby time. The pocket-sized accessory, inserted into the same portal as the standard battery charger, restores power to a dead or dying phone within seconds, without using electrical outlets or cords, or changing batteries. The Cellboost units simultaneously power and charge; can be used in one charging session or several; and can be thrown away when the power is exhausted.

With Longs, Rite-Aid, and Walgreens, Cellboost for cell phones product line has expanded its retail presence to over 80,000 outlets nationwide, including Office Depot, Wal-Mart, Radio Shack, Ralph’s, Sav-On, Albertsons, Staples and Cingular Wireless. The products retail for between \$4.99 and \$6.99. Additionally, the Company distributes globally with sales in Canada, Italy, Germany, France, Ireland, the UK and India. By the end of 2005, it is expected that Cellboost will be available in over 120,000 stores worldwide.

About Compact Power Systems, LLC.

Compact Power Systems is a global provider of portable power solutions designed to overcome today’s energy limitations for cellular phones, smart phones, camcorders, Apple iPods, Nintendo portable systems, and other mobile devices.
