**COMPACT POWER SYSTEMS OFFERS DONATION OF ANYWHERE/ANYTIME
POWER FOR CELL PHONES TO ORGANIZATIONS ASSISTING
HURRICANE KATRINA VICTIMS**

*Organizations Currently Assisting Disaster Victims Are Encouraged to
Contact CPS for Donation Information*

Donations Sent to Hearts With Hands and Baton Rouge River Center

LOS ANGELES, CA (September 2, 2005) – Compact Power Systems, LLC. (CPS) is asking any organizations currently assisting the victims of Hurricane Katrina to contact them for a donation of **Cellboost™** portable power solutions for cell phones. Victims who have been unable to charge their cell phones would be able to use Cellboost to instantly power their phones and immediately reach out or receive calls from worried family and friends.

“There are people who can’t let their loved ones know they are alive because they don’t have working cell phones,” said Rodney Rad, CPS director of marketing. “Officials say it could be a month before all the phone lines are up and running. We would like to help people stay in contact with their families and with disaster relief organizations during this tragedy. We want to get Cellboosts in the hands of anyone who needs them any way we can.” Cellboost for cell phones have already been donated to Heart with Hands and the Baton Rouge River Center.

Cellboost allows you to continue using your phone while simultaneously charging it with 60 minutes of talk time / 60 hours of standby time. The pocket-sized accessory, inserted into the same portal as the standard AC charger, restores power to a dead or dying phone instantly, without using electrical outlets or cords, or changing batteries. The Cellboost units simultaneously power and charge; can be used in one charging session or several; and can be thrown away when the power is exhausted.

“We are asking any relief organizations who are interested in a donation to aid disaster victims to contact us at 818-702-1108 or e-mails us at disasterrelief@cpsyst.com” continued Rad. “We have people standing by to assist with donation requests.”

Cellboosts are available for nearly all cellular phone brands from Nokia, LG, Motorola, Siemens, Sony Ericsson, Sanyo, Samsung, BlackBerry and Treo. The product line is sold at outlets nationwide, including Office Depot, Wal-Mart, Radio Shack, Sav-On, Albertsons, Staples and Cingular Wireless. The products retail for between \$3.99 and \$5.99.

About Compact Power Systems, LLC.

Compact Power Systems is a global provider of portable power solutions designed to overcome today’s energy limitations for cellular phones, smart phones, camcorders, Apple iPods, Nintendo portable systems, and other mobile devices.
